

# Snap locks, snap-in, plastic with grip

## Item description/product images

### Assembly:

## Description

### Material:

Lock PC/ABS.

Spring: stainless steel 1.4310.

### Version:

Lock black.

Spring bright.

### Note:

Snap locks are designed for installation in doors, hatches and covers. Available in different sizes for different door leaf thicknesses.

Flammability: listed UL94-HB.

### Type of operation:

When the grip is pressed down, the latch retracts and the door can be opened. When the door is pushed to, a spring automatically latches it shut.

### Application:

- Automobile industry
- Medical technology
- Machine construction
- Equipment construction
- Industrial control cabinets

### Assembly:

1. Produce a burr-free mounting cutout as shown in the drawing.
2. Insert the lock into the cutout from the front and push forwards.
3. Press the lock down to clip in.
